

Jazz Pharmaceuticals Names Renee Gala as President and Chief Executive Officer

July 10, 2025

– Selection Follows Robust Succession Process Led by the Board –

– Bruce Cozadd to Retire as CEO and Remain Chairperson of the Board of Directors –

DUBLIN, July 10, 2025 /PRNewswire/ -- Jazz Pharmaceuticals plc (Nasdaq: JAZZ) today announced that the Jazz Board of Directors has unanimously selected Renee Gala, Jazz's President and Chief Operating Officer, as the President and Chief Executive Officer, effective August 11, 2025, when she will also join the Board. She will succeed co-founder, Chairperson and CEO Bruce Cozadd, who informed the Board in December 2024 of his intent to retire as CEO upon the identification of the Company's next leader. This appointment reflects a key milestone in the Board's long-term succession planning process and previously disclosed CEO transition.

Ms. Gala was promoted to the role of President and COO in October 2023, after having served as Executive Vice President and Chief Financial Officer of the Company since March 2020. She brings more than 30 years of experience across finance, strategy, corporate development and commercialization. In her current role, she oversees the Company's global business operations, which include commercial, medical, research and development, technical operations and quality, as well as corporate strategy. Ms. Gala has played a critical role in driving Jazz's ongoing transformation, including architecting a business development strategy that has diversified the Company's portfolio, driven total revenue growth of nearly 90%, built broad capabilities, and established a pipeline that has positioned the Company for value creation and sustainable growth.

"The Board conducted a thorough and thoughtful search including both internal and external candidates, and we're highly confident that Renee is exactly the right leader to build on Jazz's momentum," said Rick Winningham, Lead Independent Director. "The Board's priority was to find an exceptional leader who could not only operate the business but also serve as a catalyst in driving long-term growth at this important moment for the Company. Among a field of highly capable and qualified candidates, Renee was the clear standout, with a compelling set of experiences and skillsets, as well as a strong track record of driving high performance and change at Jazz through both corporate development and operational initiatives. The Board has a strong focus on Jazz's evolution and delivering value, and we believe Renee is ideally equipped to drive and deliver Jazz's continued success."

"I am honored to step into the CEO role and build upon Jazz's extraordinary legacy, fueled by exceptional people, a spirit of purpose and an unwavering commitment to patients," said Ms. Gala. "With a market-leading portfolio of medicines, a promising pipeline, a strong financial position and an ongoing focus on corporate development, Jazz has immense potential—and more work to be done to realize it. I look forward to continuing the important efforts underway and working with our team to pursue new opportunities—both within our portfolio and through external innovation—to drive greater value for our patients and shareholders. I want to express my deep appreciation to Bruce for his steadfast leadership over the past two decades in building an organization defined by patient-centricity and mutual respect, a foundation that will serve us well into the future. I'm grateful for the opportunity to have partnered with Bruce over the last five years and look forward to continuing to work with him and the Board in this next chapter."

"I co-founded Jazz 22 years ago and am immensely proud of our journey. From the beginning, our mission has been to work tirelessly to transform patient lives," said Mr. Cozadd. "We have since grown into an innovative biopharma company with expanded commercial and scientific capabilities to drive the next phase of our evolution, and a value rich pipeline poised to reach even more patients than we ever thought possible. I am thrilled to be handing over the reins to Renee and am excited for her to lead Jazz into our next phase of growth. In her role as Jazz's CFO and then as our President and COO, Renee's leadership has been critical in Jazz's transformation into a high-growth biopharmaceutical company fueled by a strong R&D pipeline and robust commercial operations. I am confident that she will continue to further this mission as CEO, while nurturing the culture that makes Jazz such a compelling place to spend your career."

Mr. Cozadd will continue to serve as Chairperson of the Board, providing strategic input as the Company continues to execute on its growth strategy.

About Renee Gala

Ms. Gala, who joined Jazz as CFO in 2020 and was promoted to COO in 2023, is a proven organizational leader with decades of progressive leadership experience across key areas spanning finance, strategy, corporate development, and commercial at a range of life science companies. Before joining Jazz in 2020, Ms. Gala served as the CFO of GRAIL Inc., a healthcare company focused on early cancer detection. From 2014 to 2019, she served as senior vice president and CFO of Theravance Biopharma, Inc., a biopharmaceutical company, following its spin-out from Theravance, Inc. (now Innoviva, Inc.). Ms. Gala joined Theravance in 2006 and held various roles in the finance organization before leading the company's spin-out transaction. Prior to that, she served in various roles in global treasury, pharmaceutical sales and corporate strategy/business development at Eli Lilly and Company from 2001 to 2006. She also currently serves on the Board of Directors of DexCom, and previously served on the Board of Directors of Gossamer Bio, Corcept Therapeutics and Gyroscope Therapeutics, prior to its acquisition by Novartis. She holds a B.S. in Mathematics from Vanderbilt University and an M.B.A. from Columbia Business School.

About Jazz Pharmaceuticals

Jazz Pharmaceuticals plc (Nasdaq: JAZZ) is a global biopharma company whose purpose is to innovate to transform the lives of patients and their families. We are dedicated to developing life-changing medicines for people with serious diseases — often with limited or no therapeutic options.
