

## Jazz Pharmaceuticals Announces Issuance of Key Patent for Once-A-Day LUVOX CR(R)

December 18, 2008

PALO ALTO, Calif., Dec. 18 /PRNewswire-FirstCall/ -- Jazz Pharmaceuticals, Inc. (Nasdaq: JAZZ) announced today that the U.S. Patent and Trademark Office has issued U.S. Patent No. 7,465,462 covering its Once-A-Day LUVOX CR(R) (fluvoxamine maleate) Extended-Release Capsule product. The patent was assigned to Elan Pharma International Limited and is exclusively licensed to Jazz Pharmaceuticals in the United States through a product license agreement with Solvay Pharmaceuticals, Inc. The patent claims the formulation incorporating Elan's SODAS(R) (Spheroidal Oral Drug Absorption System) technology, as well as a method of using the formulation for the treatment of obsessive compulsive disorder (OCD).

LUVOX CR(R) was approved on February 28, 2008 by the U.S. Food and Drug Administration (FDA) for the treatment of social anxiety disorder (SAD) and obsessive compulsive disorder (OCD) in adults. The patent has been listed for LUVOX CR(R) in the FDA Orange Book.

### About the FDA Orange Book

The FDA's Approved Drug Products List with Therapeutic Equivalence Evaluations, commonly referred to as the Orange Book, lists all drug products that have been approved by FDA for safety and effectiveness. The Orange Book also includes information on patents which claim an approved drug product or method of use of the drug product, to facilitate the legal requirement that generic drug applicants include an appropriate certification to each such patent as part of any Abbreviated New Drug Application (ANDA) for a generic version of a listed drug.

### About Elan Drug Technologies

Elan's Drug Technologies group has developed LUVOX CR using one of its proprietary Oral Controlled Release Technologies, the SODAS(R) (Spheroidal Oral Drug Absorption System) Technology. Elan Drug Technologies (EDT) is an established, profitable and growing specialty pharmaceutical business unit of Elan Corporation, plc. For nearly 40 years, EDT has been applying its skills and knowledge to enhance the performance of dozens of drugs that have been marketed worldwide. EDT is focused on using its extensive experience, proprietary drug delivery technologies and licensing capabilities to develop innovative products that deliver clinically meaningful benefits to patients. More information about EDT's broad range of technologies including their Oral Controlled Release and NanoCrystal(R) Technology Platforms, and its range of services is available at <http://www.elan.com/EDT>.
